Subject: Final Approval of Master of Planning (Town and Country Planning) and Provisional Approval of Bachelor in Planning Course.

In response to your application for Final Approval of Master of Planning (Town and Country Planning) and Provisional Approval of Bachelor in Planning Course, School of Engineering and Technology, Sandip University, Trimbak Road Nashik, Maharashtra. Following the visit of the Expert Committee to your esteemed institution on 05th December, 2025, and subsequent deliberation based on their comprehensive report, I am delighted to inform you that the Council of the Institute of Town Planners, India (ITPI) has approved the recommendation of the expert Team in its meeting held on 02nd January. 2026. Consequently, ITPI is pleased to accord final approval for the Master of Planning (Town and Country Planning) and Provisional Approval of Bachelor in Planning Course.

In order to ensure compliance with the resolutions passed by the ITPI Council, please take note of the following:

1. It is advised that the department should conduct expert lectures and also training programs on software skills in planning.
2. It is imperative to appoint an ITPI nominee to both the Board of Governance and the Board of Studies, as applicable.
3. An ITPI nominee must also be included in any selection committee formed for the recruitment of planning faculty.

We expect the school to uphold the highest standards of Planning Education by organizing studio exercises outside the state, inviting experts from academia and the profession for special lectures. Additionally, fostering interaction among students from various Planning Institutions is encouraged, and we recommend considering membership in NOSPlan, an association of students of planning at the National level. Furthermore, it is also must to annually upload profiles of graduating students to the ITPI website under the "Young Planners Profile" section.

Please be advised that ITPI reserves the right to conduct surprise inspections in the future to ensure adherence to prescribed norms.

Thank you for your attention to these matters.

With regards,

Yours sincerely,

(Pradeep Kapoor)
